We can see from the Call Option Spread Analysis Calculator that if the MOV stock price declines by -2.5%, stays where it is, or increases in price when the options expire, the spread will make a 29%, or $225 profit. If MOV is down -5% when the options expire, the profit will be 18.3% or $142. If MOV is down -7.5% when the options expire, the spread will make a 2.3% or $18 profit.
