IMPORTANT NOTICE! Stock, futures, forex and option trading has large potential rewards, but also large potential risks. You must be aware of the risks and willing to accept them in order to invest in the equity or options markets. Don’t trade with money you can’t afford to lose. This is neither a solicitation nor an offer to buy/sell securities, interests or listed options.

NOTICE: “Hypothetical or simulated performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades have not actually executed, the results may have under-or-over compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown.”

ABOUT JOE DUFFY

Joe Duffy began his career in the investment business in the 1980s. After five years of trading he entered the U.S. Trading and Investing Championships on three separate occasions. He finished in the Top Ten every year he entered, with annualized returns of 121%, 243% and 432%.

As a direct result of his performances in the trading contests, he was contacted by a publisher to reveal his strategies and market analysis. He subsequently wrote The Trading Advantage and Turning Point Analysis. Both books have appeared on Futures Magazine’s list of “Best Books for Traders.”

For many years, Joe worked as a proprietary trader and technical analyst for a large multinational institution where he initiated and managed multimillion dollar positions. He then made the decision to leave his prestigious position to pursue his goal of trading from home.

Joe appears regularly at seminars on trading and market analysis, and traded successfully with the DNA Market Timing Method showing a phenomenal 1269.7% annualized return.

Now he is working with traders to help them trade successfully and automatically with “The Ultimate Trading Robot”.

Dear friend,

If you’re looking for a simple, foolproof method of potentially pulling money out of the markets consistently, then this letter will be of vital importance to you.

It doesn’t matter if you trade stocks, futures, ETF’s or Forex, this could forever transform the way you understand and profit from the markets.

I believe you’ll dramatically improve your trading decisions and consistently make more money…using a winning approach proven with hard evidence and perfectly matched to your desires.

I know that’s a very strong statement for me to make and you’re probably a bit skeptical right now. That’s why I’m prepared to back up every word of it – at my expense – for the next 6 months.

$16,000 per month – or MORE!

Imagine pulling in $16,000 each month – or more – just by tapping a few keys on your laptop! Around twenty minutes – then you can shut down and get on with REAL life! While not typical, such results are possible using these techniques.

Having fun. Enjoying life. Remember that?

I can honestly say this because Joe Duffy’s already done it. Using the very same secrets he’s ready to share with you now!

You don’t have to work for a small salary. You don’t have to watch your life slip away day-by-day struggling to make a living.

Imagine having the freedom to live your life how you want and having the money to enjoy it!

Be Able to Potentially Pinpoint Profitable Opportunities—Automatically

The amazing truth is that Joe Duffy will do everything he can to help you succeed. The Ultimate Trading Robot lets you take advantage of the natural entry points for almost any market. There are huge potential

“Joe is one of only a handful of truly successful traders I know of. His accuracy is incredible. I’ve seen him take very small accounts and get triple digit returns in just a couple of months.”

– Lee Gettess, Lake Havasu, AZ

“This is the greatest book I’ve ever seen on trading the markets. I learned a lot from your first book. But this one goes so much further. Thanks for sharing what seems to be some very powerful secrets.”

– George Moore, Salt Lake City, UT
profits within the rhythm of the market. As you’ll see!

The Ultimate Trading Robot helps you find systems that work, and it lets you track and automate them in REAL-TIME. It literally transforms your computer into an “intelligent trading assistant” that pinpoints potentially profitable buy/sell opportunities automatically.

By using the Ultimate Trading Robot, you’ll be able to react more quickly to sudden market movements while avoiding making emotional trading decisions...often a trader’s biggest downfall.

This amazingly powerful tool is also very easy to use, even if you’re new to systems and trading. If you can load a chart onto your computer, this course will show you step-by-step how to dramatically increase your trading power – and possibly your trading results!

**You Need a Trading Edge to Make Money!**

If you want the bottom-line about what is proven to work – including past evidence and definitive rules ... then you’ve found the answer! Everything is proven with empirical tests using hard-coded rules – zero user subjectivity. Every step is explicitly laid out so in our opinion even a novice trader can easily start using it tomorrow morning!

**See for yourself – $375,000 Worth!**

This course walks you through everything you’ll need. You’ll see Joe step-by-step develop an actual fully disclosed 100% rule-based mechanical T-bond trading system with over $375,000 profit and only $8K drawdown based on the historical simulations he’s performed. It’s over 58% accurate with large average profits ...and it’s a perfect blueprint to start moving towards some really powerful trading !!

**You’ll Get The Exclusive “Million Dollar Strategy”**

The Million Dollar Trading system is so named because it surpassed the one million dollar mark in historical testing using only 1 sp contract.
It is a remarkably simple, completely mechanical system that can be written entirely on a post-it note! Yet it’s profited consistently in hypothetical trading year-after-year to pile up a huge fortune in potential profits.

Even more important than the system itself and the million dollar profit potential is what it teaches – that there are many tools to be used and uncovered and you do not need to be a math whiz or a quant to find them; the Million Dollar system uses nothing more than the four basics of addition, subtraction, multiplication and division and I have not taken a math course since high school!

What – a ONE MILLION DOLLAR PROFIT is not enough for you? See page 7 for an even more powerful weapon.

**Million Dollar SP 500 Trading System**

Total Net Profit: $1,018,150
Winning Percent 61.1%

Introducing TRIMAC –
What Some Have Called Simple,
Effective, Flexible, Highly Accurate

TRIMAC has been called a highly accurate hybrid trading program that hits market turns with amazing accuracy. Joe’s uncovered a systematic approach that seems to identify market turns and swing moves in every market tested. All fully illustrated and in our opinion easy to apply with just 7 simple rules.

We think it is a very efficient and powerful technique for highlighting an impending swing move. TRIMAC also can be applied visually and can be used in conjunction with other strategies.

It’s clear. It’s so easy no computer is needed. It’s been highly accurate in past simulated studies. And it could potentially be highly profitable. Take a look:

Absolutely Automatic And Easy-To-Use

You are never left wondering when to open or close a position. The Ultimate Trading Robot telegraphs coming potential changes in direction so you automatically take your trades. These methods are thoroughly and conclusively proven with documented case histories, and the sound logical reasons why they have worked so well.

You don’t have to be a professional trader or chartist to use these strategies. Anyone who can do simple math can potentially profit. With little time or effort, you can “work” the system just as Joe Duffy did.

A few of the Ultimate Trading Robot strategies are not 100% automatic when you first receive them – more like 95% automatic. You can use your personal judgement to make the final decision. Or simply plug in specific rules to make all decisions 100% mechanical and automatic.

Of course, your trading is only 100% automatic if you want it to be. Otherwise, the final “pull of the trigger” is up to you. It can be much easier to trade and to be successful trading when you have a proven strategy to support you.

The Market Reveals Its Direction

Like the tides...like the seasons...nature moves in cycles. Humans – and human nature – are no different. We do follow repetitive, up and down patterns.

Importantly – market moves are not based on value, but on the perceived value of the market. Not as easy to predict as the next high tide, yet just as real.

What Joe Discovered

What Joe’s found is a set of strategies that crack the code of price action. Are the market doldrums going to continue? Price action tells you. Will we see a new bull market? Price

The Proof Is In The Profits

Joe Duffy knows there’s only one way to find out if a trading approach works. And that’s by testing it in the real markets with real traders...using real money. So back when he first started trading that’s exactly what he did when he pitted his strategies against those of the greatest traders in the world in the U.S. Trading and Investing Championships.

How did he do?

When the test results were in, Joe’s trading methods passed with flying colors. His annualized return in the contest was 121%, easily placing him among the Top Ten Traders. But that wasn’t enough. He wanted more evidence...

So to prove he wasn’t just a flash in the pan, he entered the same contest two more times in the next couple of years! Both times he finished among the Top Ten Traders with annualized returns of 243% and 432%.

That’s right, he put his reputation on the line in arguably one of the world’s most prestigious trading championship three different times and all three times he finished in the Top Ten. And his worst performance of these three performances was a 121% annualized return. Most investors would love to make profits that large!
action tells you. Is the market about to crash? Again price action tells you. (By the way, Joe has earned 1269% annualized actual profits trading while other investors were wiped out by confusing markets. He didn’t just ride a lucky bull wave.)

- 82.50% winners and $943,475 profit in S&P
- 80.94% winners and $680,275 profit in NASDAQ

Overall, better than 88% winning days, 100% winning months (68 of 68) and $1,978,465 in Back-Tested Profits!

Yes, Joe started with a $9,000 account and made 733 real money trades for a phenomenal 1269.7% annualized return! Nearly 4 of every 5 trade days were profitable; there were never more than 2 losing days in a row. Yet he’s had up to 18 straight winners.

And the manual contains ALL the Rules, trade examples and the actual account statements verifying all 733 trades!

Joe Duffy has walked the walk, and he has the profits to prove it! He’s managed multi-millions for others before retiring to trade for himself. He’s proven himself in three trading contests … and NOW his proven-profitable DNA method has produced 1269% annualized profits in 733 actual trades!

**Boy, There Have Been Some NICE Profits!**

Now, you and I both know Joe can’t possibly forecast the future. He can’t say for sure, 100%, that these strategies will continue to follow the markets so perfectly.

Then again, they have worked for thousands of trades. Isn’t it worth taking the chance that they will still work after you learn them?
CCI For Accurate Market Turning Points

We show you how to use the CCI (Commodity Channel Index) to potentially pin-point exact turning points in the market. We also show you how to use it with other indicators such as the Duffy 3 by 3. And this is not anecdotal evidence from a few hand picked examples; everything is rigorously tested and only that which has proven its success is presented.

One of our 100% rule based CCI strategies is up to 86% accurate in random historical tests covering numerous markets and time frames! Finally a way to find highs and lows in the market that does NOT require any user discretion…just let the market prove itself following these simple to understand rules!

Absolutely NONE of our CCI work is anything like you find in any of the popular CCI internet “clubs”. It is ALL 100% original and revealed here for the first time. The rules are clearly laid out and simple to understand – just let the market action tell you what it wants to do!
**Trading System Highlights**

The systems Joe reveals to you are unique from almost any other system you have purchased or created before:

1. Optimized based on sound principles **NOT** curve fit to past data.
2. Can be used to trade individual stocks ... stock index futures... or nearly any other market you care to follow.
3. A real time, real money, verifiable and very profitable track record.
4. Works in any type of market environment... trading range or trend.

**Joe Duffy Will Teach You**

You are going to be given all the tools to understand what it takes to become an expert at trading. I’ll make sure of it. Along with the course manual, you also can spend a day trading with Joe Duffy at a special seminar for course members.

You heard right! Meet Joe personally, and he’ll spend the day answering your questions. You can watch him as he trades the market. See how he trades. And trade with him if you like. He’ll treat you to lunch, and you can discuss how his robot strategies work.

Please realize that it is not necessary to get this instruction. You definitely will have everything you need included in the manual.

But a few of you may feel more comfortable seeing Joe – and the Ultimate Trading Robot – in action. And getting your questions answered.

Joe’s intention is to make you a top-notch, successful trader. And he’ll do everything he can to make you an expert trader. He will

Joe’s asking for just a 10% deposit of $49.50 to ship you “The Ultimate Trading Robot” plus the bonus DNA manual. After that, you’ll only pay the remaining $445.50 after you make a least $10,445.50 profit. If you don’t make at least $10,445.50 in the next six months, you pay nothing beyond the small deposit. Joe only makes his money after you make at least $10,000 profit yourself!

Here is your opportunity to stop reading about enormous profits and possibly experience the thrill of winning yourself. The opportunity to become a successful trader.

Look again at the historical testing performance results of these strategies. Large profits … small equity dips … high accuracy. This works better

Wayne Ford, a store owner in Nashua, New Hampshire, has been a follower of Joe Duffy’s trading techniques for many years...

“I got started with Ken Roberts nearly ten years ago. And then I studied techniques and systems from other gurus. I love the material in Joe’s books… the way he identifies and targets turning points.

“I’ve made six-figure annual profits following Joe’s ideas. DNA Market Timing is so common sense and logical and easy to follow. It’s easily the best, most powerful system I’ve ever seen.

“My advice to you is to follow the DNA Method to the letter and start small. But think big, and I mean really big. You can become a successful trader if you only dare to try.”
