If You Think Higher Profits Require Greater Risk… Think Again!

INSIDE
Discover a weird pricing quirk that produces profits greater than 1,000%
And learn a surprising secret that reduces your Risk to ZERO

If You Just Follow the Simple Steps Revealed Inside
I GUARANTEE You Will Be Able to
Double Your Money 20 Times In the Next 20 Days

Dr. Rick W., Retired Dentist
“I spent a lot of money on traditional option training. Then I attended Chris’s seminar and that ushered in a whole new realm.”

Robert S., Mortgage Broker
“I traded options for more than a decade before finding Chris. And I have to say, he definitely has a different way of doing things…But it works!”

Richard D., Business Owner
“I’ve taken quite a few courses and I’ve not seen anyone with Chris’s ability to make the path to winning so obvious. He’s just so clever.”

Michael L., Retired Professor
“Almost every week is profitable… Cash flow in the black gives you the freedom to live life on your own terms. And that’s what we all want, isn’t it?”
If You’ve Got a $100-Bill You’d Like To Turn Into a $1,000 Payday…
And Possibly Even a $25,000 Monthly Income…
And If You Also Want a Way To Rid Yourself of ALL Risk…
Then Read This!

Dear Fellow Wealth Builder,

If you’ve been thinking higher profits go hand-in-hand with greater risk, you’re not alone. Most people seem to think that.

But, as you’ll soon see... it can actually work quite the opposite!

My name’s Chris Verhaegh. And when I first went public with my discovery of a weird quirk that makes daily profits of 1000% (and more) commonplace, it created quite a stir.

And today thousands of men and women are using my breakthrough strategy to turn $100-bills into $1,000-paydays... over & over again.

For example, in a matter of hours:
Caterpillar grew $99 to $1,353… 1,267%
Google grew $100 to $1,150… 1,075%
And Las Vegas Sands grew $400 to $4,600… for a profit of $4,200!

Imagine what you could do with a continuous cash flow like that!

Please Note: Stock and option trading has large potential rewards, but also large potential risks. You must be aware of the risks and willing to accept them in order to invest in the market. Don’t trade with money you can’t afford to lose. This is neither a solicitation nor an offer to buy/sell any stock. Also, hypothetical or simulated performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading. Since the trades have not actually been executed, the results may have under or over compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. In addition, hypothetical trading cannot completely account for the impact of financial risk in actual trading. The ability to withstand losses and adhere to a particular trading program are material points which can adversely affect actual trading results. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown.

Testimonials are believed to be accurate but have not been independently verified. No attempt has been made to compare the experiences of the persons giving the testimonials after the testimonials were given to their experience previously. Some testimonials may be for products by Chris Verhaegh other than the products promoted in this brochure. No one should expect to achieve the same or similar results as those shown herein because past performance does not necessarily indicate future results.
Now, true to form, I’m about to flip conventional wisdom on its ear once more.

Because, after I show you 3 easy ways to turn your loose change into huge piles of cash... $1 morphing into $1,689 on page 12 is a definite must-see...

Then I’ll demonstrate a jaw-dropping, head-slapping, stupidly simple way to make your dream of an automatic $25,000 monthly income possible.

And finally, I’m going to show you how to do something you probably thought couldn’t be done... I’m going to show you how to cut your risk to ZERO!

You read right... before we’re done here today, you’ll discover a shockingly easy way to enhance your trades so it becomes absolutely impossible to lose money.

And the kicker is...

Every single strategy requires very little money and is so easy to do, even folks who have never traded before enjoy instant success...

“Before Chris’s course
I would NOT have believed I could do this...
I didn’t even know what an option was”

Doug & Christy, Holland MI

“But Chris took the mystery out and made it easy.”

“Chris teaches you how to eliminate guesswork and have the confidence to pull the trigger at just the right time.”

“Last Friday, for example, we bought 5 Goldman Sachs Calls for $15 each. Then we sold them just 37 minutes later for $162.”

“After commissions profit: $735... WooHoo!”

“He has a ‘PULSE’ system that stands for the 5 steps you go through to systematically select an option, get into a trade, and eventually exit.”

“But he also builds in what he calls ‘sloppy slop’, so you don’t need to be perfect. And that’s very reassuring for a newbie like me.”

When the housing crisis wiped out Doug and Christy’s property management business... leaving them with four kids to support and no income... of course they were worried sick. Wouldn’t you be?

Thank goodness, they learned about my super-simple PULSE approach to making boat loads of money... despite the horrible recession... in time to save their home and restore financial security to their family.
On the day of expiration, Out-of-The-Money (OTM) options become super cheap because there’s no remaining “time value”.

Your goal with the PULSE Grand Slam is to pay pennies for expiring OTM options… that are within the normal trading range… and then sell them for ten times as much when they wind up In-The-Money later that day.

For example, Tesla Motors, which is on the PULSE short-list of preferred options, opened at $148.46.

TSLA has a normal intraday trading range of $8…

And they have strike prices at $1 increments...

So, as you can see, there were plenty of super cheap OTM Put options… within the normal trading range… that ended up ITM over the course of the day.

And when they did, their value soared… putting Grand Slam profits of 1000% within easy reach.

As Richard and Robert, (both pictured on cover) will be happy to tell you and you can see for yourself on page 7...

“All you do is, when the market opens on expiration Friday, and options are really cheap, you buy the put or call that’s nearest the stock price. Then you just sit and wait. Because the stock’s so volatile, you know the price is likely to cross the strike price sometime during the day. And when it does, your options will go from 25 cents to a buck or more. It happens time and time again.” – Richard D.

“Nearly every Friday I can make as much as 1,000% profit off Goldman Sachs, without even looking at a chart.” – Robert S.

You aren’t going to let incredible amounts of easy money pass you by, are you? Get Grand Slam details on page 120 of the PULSE manual. Order yours today… 888-233-1431.
Now, if you agree that “Nothing compares to the peace of mind you get from knowing you can make money no matter what the economy does.”

Then this special report is for you. And you’ll feel more secure and more excited about your own financial future with every page you turn...

Because, as you’ll soon see, PULSE has brought prosperity and peace of mind to thousands of men and women from all walks of life... many with no trading experience whatsoever...

And I believe it can absolutely do the same for you.

**PULSE**
Is Making a Lot of Very Ordinary People Extraordinarily Rich
So Why Not You?

Commercial Pilot from Long Island, NY:
“**$17,250 in two days**... Profits like this allow you to do some pretty spectacular things” (Brian’s story on page 15)

Corporate Executive from Palo Alto, CA:
“The next day I closed the trade with a **$20,000 profit** and I thought... WOW, this is amazing!” (Jeff’s story page 23)

Retired Dentist from Los Angeles, CA:
“If I can make **$3,000 to $4,000** a week, I’m happy. And I’m having fun.” (Dr. Rick’s story page 16)

Licensed Financial Industry Professional in Cincinnati, OH:
“I might make **$4,000 or $5,000**... It’s more or less mechanical in nature so I don’t really worry about it.” (Mark’s story page 6)

Neuroscience Professor from Los Angeles, CA:
“Cash flow gives you the freedom to live life on your own terms. That’s what we all want, isn’t it?” (Michael’s story page 14)
Yes! The freedom to live life on your own terms is exactly what you want...
And in the next few pages every one of these guys will be happy to tell you how PULSE is the quickest, easiest, and surest way to get there.

P.U.L.S.E.
Is the Heartbeat of Every 10X Profit Opportunity

Like Doug said on page 3, PULSE stands for these five traits that give every trade enough heart to achieve profits of 1000% or more...

P – Potential to Win
U – Upside Reward
L – Low Risk
S – Strategic Setup
E – Event / Enter / Exit

Back when PULSE saved Doug and Christy from financial ruin it was important that they fully understand the meaning behind each letter... because it was up to them to do their own analysis.

And you can still do your own analysis if you want to... it isn’t really hard.

But nowadays, you can also subscribe to the PULSE Options Newsletter and receive a weekly list of options that fit the criteria.... And that makes profiting virtually automatic.

Nonetheless, I want you to know about the PULSE criteria so you realize...

PULSE is scientific... PULSE is methodical... and PULSE is unlike anything you’ve ever seen before.

Even Mark, who has a financial degree from Purdue University, is astounded by my unique approach to earning huge profits day after day...

“With Chris’s penny-option strategy, it doesn’t take much of a move for you to make a lot of money”
Mark H., Cincinnati, OH

“With Chris’s strategy, if the stock goes up a penny your options go up a dollar.”

“I already knew 85% of this. But it’s the other 15% that really adds a lot of value.”

“For example, I put on a Goldman Sachs spread Wednesday. And on Thursday the stock climbed...
10 points and the Calls went through the roof. So I was able to close out the trade with 300% overnight.”

“Today I did a trade in Walmart. I bought at-the-money Calls expiring today for 11 cents... Right now those options are trading at 45 cents.”

“Sometimes I watch it. Other times I put in a limit order and walk away. It’s pretty much mechanical in nature, so I don’t really worry about it.”

Picture yourself methodically placing an order, walking away, and then coming back an hour later to find profits of $4,000 or $5,000...

Mark’s doing it. And so are a lot of other people who don’t have his kind of financial background or any trading experience whatsoever. So why not you?

WOW!
So Little Cost
Such Exciting Returns
AND
It’s So Darn EASY
No Wonder This Is Everybody’s Favorite!

Wow... that’s quite a line-up. Wouldn’t you say?
And, Grand Slam winners like these... 3 of which are greater than 1000%... are now possible 52 times a year!
Lit Fuse
Profit from Stocks That Have Been Too Quiet for Too Long

When a stock that typically trends suddenly stays in a narrow trading range for days on end, you’ve got yourself a “Lit Fuse” ready for blast off!

As you can see, MasterCard is a stock that generally trends up and down. But, for a while there it got stuck in a rut… going nowhere day after day.

So, Saturday I told subscribers to the PULSE Options Newsletter that MasterCard was definitely a Lit Fuse.

To prepare for MasterCard’s big move, you could have purchased an At-The-Money Call for $920 and an ATM Put for $750.

That way you’d be ready to profit no matter which way it goes.

And you didn’t have long to wait, either.

Because, on Wednesday MasterCard’s opening price gapped up, and you could have sold the Call for $2,631.

Then it went screaming south, giving us a chance to sell our Put for another $3,155.

That’s a total profit of $4,116 in a single day!

The Lit Fuse really does create some phenomenal profit opportunities.

For example, Brian says he’s buying a new car with the $17,250 he earned on his Tesla Lit Fuse, (see page 15).

Imagine what you’ll do with your Lit Fuse profits… which come surprisingly often.

And, not only will I be sure to tell you about every Lit Fuse set-up I see… On page 50 of the PULSE Manual I’ll show you an easy way to scan for your own Lit Fuse set-ups… think how proud that will make you! Call today: 888-233-1431
But that wasn’t always the case.

Let me tell you about the fantastic new wealth-building engine that powers our PULSE money machine.

**Have You Heard About This Powerful New Wealth-Building Engine?**

Short-term weekly options... which come out on Thursday and expire a week later on Friday... were the brainchild of Tom Sosnoff, co-founder of ThinkOrSwim online brokerage.

Calling them ‘Quickies’, Sosnoff pitched his idea to the Chicago Board of Options Exchange (CBOE) in 2005.

The CBOE didn’t like the sexy name. But they did like the idea of offering people a high-profit, low-risk, wealth-building engine.

So, later that same year they got permission from US regulators to launch a test program.

But it wasn’t until June 4th 2010, when the pilot program was extended to individual stocks and ETFs, that popularity soared.

Now available on 342 of the most actively traded stocks and ETFs (Exchange Traded Funds), Weeklys are the fastest growing investment vehicle on the planet.

And here’s why they’re so popular...

**6 Reasons Why So Many Traders Love Weeklys And You Will Too!**

1. **Weekly Options are Cheap, Cheap, Cheap**
   Since expiration is within days and often within hours, you can buy at-the-money Weeklys for as little as 5¢ to 10¢... that’s just $5 to $10 to profit from 100 shares of stock!

2. **Weekly Options have Unlimited Profit Potential**
   In a matter of hours Weeklys can soar 500%, 800%, 1000% or more... and they do it on a very regular basis. Where else can you get returns like that?

3. **Weekly Options are Easily Traded Securities**
   You trade Weeklys just like stocks, using the same type of orders. And because volume is high, liquidity is never a problem and the bid/ask spread is usually tight.

4. **Weekly Options are the Most Profitable Way to Exploit the News**
   Ahead of Earnings, Government Reports and other news, most options become over-priced... making profits hard to come by. But Weeklys remain affordable... turning even a small price move in the equity into colossal profits... often 1000% or more!
Weekly Options Make 333% More Income Possible
Weekly options give you 52 times a year to profit from the low-cost, soaring-profit Grand Slam Income Strategy on page 4. That’s 40 weeks of income that simply did not exist prior to 2010 when Weeklys first hit the scene.

Weeklys Make Profitable Trading Quick & Easy
PULSE strategies such as the Grand Slam, Knee Jerk, and Lazy Man require NO Charts... NO Graphs... No Technical Analysis of any kind. You can literally trade from your iPhone in less than 15 minutes!

“$1,000 on a $100 option... And do the same thing over and over again”
Richard D., Berkley, CA

“90 or 95% of all traders lose money. And the ones that make money are the ones that find this profitable little niche and do the same thing over and over again.”

“That’s what Chris is doing.”

“He’s trading weekly options, which are extremely sensitive to price movements. And he looks for stocks that have volatility that will drive their price over the strike price—which increases the option value 10-fold.”

“For example, Chris said to look at MasterCard because it had fallen into a condition he calls a ‘lit-fuse’.”

“So I bought a straddle. Then I came back a ½ hour later to find the stock price had dropped $4. And I’d made $1,000 on a $100 option.”

Thank you, Richard. I couldn’t have said it better myself.

Find a profitable little niche... like turning $100-bills into $1,000 paydays... and do the same thing over and over again...

Next thing you know, YOU’RE RICH!

Here’s how it all started....

How I Discovered the Amazing Price Phenomenon That’s Been Making People So Darn Rich

It all started Friday, April 16, 2010... 49 days BEFORE Weekly Options were first introduced on a handful of stocks and ETFs... and I remember the day as if it were yesterday.
From now on, when you hear the word “Gap” I want you to think…
Gigantic … About-face … Profits
Because that’s what Kneejerk is all about. And here’s how it works…
When Intuitive Surgical earnings disappointed investors, ISRG price gapped down $60 overnight…
And 380 Call options… which sold for $44.30 when they were In-The-Money…
Plunged to just $0.50 when the price gap put them way Out-of-The-Money.
Wow, that’s just $50 per option…Let’s get 25!

Because, after the initial Kneejerk, PULSE qualified options almost always do a complete ‘about-face’ and spend the rest of the day trying to ‘fill the gap’…
And fill our pockets with profits of gigantic proportion!
But please realize…”mean reversion”, which is the scientific name for what makes Kneejerk so darn profitable… is far more reliable on PULSE qualified options.
So please, before you try this on your own, send for the PULSE manual… Turn to page 109… And discover the critical factor that makes Kneejerk returns of 2,480% in a single day the scientific norm.

Call today: 888-233-1431
Regular monthly options on Goldman Sachs were expiring that day. So they had no time value left and that made them dirt cheap.

Correction: they were even cheaper than dirt!

When the market opened, Put options with a strike price of $175... (which gives you the right to sell Goldman Sachs stock for $175 a share)... cost just 1-cent...

But that didn’t last long because Goldman Sachs stock plummeted $17 that day. And the Put option you could have bought for a penny skyrocketed to $16.90!

Ok, let’s do the math... Each option controls 100 shares of stock, so we move the decimal right two places and get:

Sold at $16.90 = $1,690
Bought at $0.01 = $1
Profit $1,689

Holy moly! If you’d gotten out on the high of the day, you’d have a profit of $1,689 on an investment of just ONE DOLLAR!

And with Open Interest of 10,418, there were plenty of options to go around.

So you could have easily invested $100, instead of just $1, and potentially earned $168,900 in a matter of hours!

Even if you didn’t get out on the high, the closing bid was $14... So you know you could have gotten out at that price for sure.

Imagine if You Could Make Profits Like that Every Week!

When Weekly Options were introduced... just 49 days later... the astronomical expiration-day profits from this GS trade were still fresh in my mind.

And Goldman Sachs was among the first stocks to offer Weekly Options.

So naturally, I watched closely to see if the same pennies-to-dollars pricing phenomenon could be repeated every Friday when the new Weeklys expire.

Lo and behold... while that first GS trade still holds the record... profits of 1000% proved to be surprisingly commonplace!

Hence Goldman Sachs became the very first PULSE ‘money machine’!
“Nearly every Friday I can make as much as 1,000% profit off Goldman Sachs without even looking at a chart.”
Robert S., Melbourne, FL

“I traded options for more than a decade before I ran across Chris Verhaegh. And I have to say, he definitely has a different way of doing things.”

“But, it works!”

“For example, his way made me $6 grand in two days on FAS. You know, the financial ETF?”

“Then, I got into a First Solar trade for $1,620. And in less than 2 hours I got out with a profit of $3,400!”

“It’s kind of like why the Army puts country boys in the Humvees patrolling over in Afghanistan. Guys who grew up in the country see things differently than city boys do. And it’s a big advantage.”

“Well, Chris has a different way of looking at the market. And the results you get doing it his way are truly amazing.”

Yes, I do have a different way of looking at the market. And soon you will too, because Robert’s right. I doubt you’ll find results like this anywhere else.

For example, if you did one Goldman Sachs trade every week, you could potentially grow $3,000 to nearly $30,000 in just 12 months.

That’s a whopping 887.9% return... after commissions... without compounding.

And that’s just the beginning.

Because, as the list of qualified options grew, the Goldman Sachs strategy evolved into the Grand Slam...

Making it possible... as you saw on page 7... for you to earn 1000% or more on multiple options every single Friday... 52 times a year!
With the Automatic Lazy Man, you simply place one Non-Directional Delta-Neutral trade at the beginning of every week… then walk away.

What could possibly be easier… more consistent… and less time consuming than that?

And according to test results, using actual Goldman Sachs data…

If you started with $50k… which Grand Slam should give you in no time, no matter how little you have to begin with…

And every Friday you entered one Lazy Man trade for not more than 500 GS options… which Goldman Sachs can easily support…

Then you withdrew $25,000 each month for spending money…

Your nest egg… after paying commissions… could possibly total $2.7 Million in just 16 months!

Take a minute to picture how $25,000 every month… plus $millions more in the bank could change your life.

And it all starts the minute you get your PULSE Manual… turn to page 88… and make your first Lazy Man trade.

“**I like the freedom of not being tied to a computer… It’s very compatible with who I am.”**

“**Cash flow that’s in the black gives you the freedom to live life on your own terms. And that’s what we all want, isn’t it?”**

Michael L, Retired College Professor (pictured on cover)

You don’t have to be a college professor to recognize how smart it is to have this easy-to-follow wealth-building plan working for you. Call now: 888-233-1431.
Now here’s a dumb question for you…

What’s Even Better than Cranking Out Automatic Profits Every Friday… 52 Weeks a Year?

How about automatic profits on a DAILY basis… 5 days a week… 52 weeks a year?

I think it’s only natural for the thrill of easy money to make you hungry for more. Don’t you?

So with a hearty appetite and a crazy new perspective, I began looking for more ways to cash in on Weekly Options.

And to my surprise, I found that Weeklys give you a chance to AT LEAST double your money almost every day of the week!

And, if you’ve been reading the sidebars in this report, you know I’m not exaggerating in the least.

I promise you; once you master the PULSE system... or subscribe to my PULSE newsletter... you’ll see profit opportunities with returns in the hundreds, thousands, and sometimes even tens of thousands of a percent on a daily basis!

“$17,250 in two days!
Profits like this allow you to accomplish some pretty spectacular things”
Brian H., Long Island, NY

“Last week Chris wrote about Tesla being a ‘Lit-Fuse’. So, on Tuesday I bought 20 Calls for $0.60... Then I bought 10 more Calls for $1.17... Overall profit: $17,250 in two days!”

“With a wife and two teenage kids, money is flying out of the house all the time. So I try to use this income for extras.”

“Like, my daughter’s going off to France with a high school trip and I paid for half of it with trading profits.”

“I’ll probably use my Tesla profits to buy a new car.”

“Profits like this allow you to accomplish some pretty spectacular things... pay for college... own a vacation home... whatever.”
I’ll probably use my Tesla profits to buy a new car.”
Meet

Chris Verhaegh

Chris Verhaegh’s father, who immigrated to the USA from the Netherlands as a young man, needed to help support his 9 siblings. So he never went to high school. Wanting better for their son, Chris’s parents were understandably grateful when his genius for math earned him a scholarship to a prestigious prep school in LA, (at age 14 Chris wrote and sold a logic puzzle to Dell Crosswords).

And that’s where it all began…

Chris’s 11th grade guidance counselor got him a job as mail clerk for an investment firm. Soon, Chris was writing the newsletters he previously addressed and mailed. And a few years later he became head of the precious metals division during the great ‘Gold Rush’.

In 1983, after the gold-bubble burst, Chris went to work for a private mint where he honed his skills as a precious metals trader, using options to hedge major holdings.

In search of a simpler lifestyle, Chris moved his wife and young daughter to Boise, Idaho (3 sons were subsequently born there). And he settled into trading for a living… plus writing, speaking, and teaching.

- Wrote more than 100 weekly columns for OptionInvestor.com.
- Conducted seminars and workshops for Investools and has been a frequent speaker at Investor Conferences and Money Shows
- On Business Advisory Board at Northwest Nazarene University
- Consultant for a European Investment Bank where he taught technical analysis to their fund managers, advised their proprietary trade desk, and helped trade over $2Billion.

Then, a collision of motivation and opportunity ushered in an exciting and extremely gratifying new chapter in Chris Verhaegh’s illustrious career…

Motivation: Homeschool advocate and promoter Rhea Perry asked Chris to design a trading course that would allow parents with very little capital to earn a reliable income while staying home with their children.

Opportunity: The CBOE introduced Weekly Options, which suddenly made it possible to turn $100-bills into $1,000 paydays… or $500 into a $5,000 payday… 52 weeks of the year.

So Chris designed the trading course Perry requested. And it did, in fact, give stay-at-home moms and dads a chance to live the lifestyle of their dreams. So naturally, they told their friends and family. And by word-of-mouth over $1million in courses were quickly sold.

The immediate success of so many beginning traders created quite a stir in the financial community… which led to additional courses and subscription products.

Yet, at the heart of it all, you’ll find just one thing … The PULSE System for identifying the greatest profit opportunities with the lowest possible risk. Why not subscribe today: 888-233-1431.
Like Brian says, profits from the PULSE high profit, low-risk strategies do allow you to do some pretty spectacular things.

You could buy a new home or vacation home... drive the car, boat or motorhome of your dreams... travel to exotic places or vacation at posh resorts... pay for your kid’s or grandkid’s college education... and never have to worry about money again.

In other words... the ability to turn mere pennies into huge piles of cash... as you’ve seen repeatedly today... gives you the freedom to live life on your own terms.

And that, my friend, is what it’s all about!

Freedom of Choice...
That’s What It’s All About!

I have nothing against having a job. I’ve had a number of jobs. Jobs are necessary. Jobs are important. Jobs keep our economy running and make this the greatest nation on earth. I’m not against anyone having a job who wants one. What I am against is thinking that your job is your life.

I started trading for a living in one capacity or another right out of high school. But, it wasn’t until my first child was born... we now have four... that I opted out of the corporate world.

And the way my family flourished in our unencumbered lifestyle really was awesome.

In fact, home school advocate Rhea Perry was so impressed that she asked me to share my secret.

So I created a trading course that would allow parents with very little capital to earn a good income while staying home with their children.

Naturally, all those moms and dads that were suddenly able to stay at home and live the lifestyle of their dreams told their family and friends about me teaching them how to trade for a living.

Before long, over a $million dollars in courses were sold... which I found extremely gratifying.

And that’s how empowering folks to live life on their own terms became my life’s work.

Some of my students, like Doug, Richard, and Jeff became full-time traders...

“I have a good accounting job. But living in California is pretty expensive. So I’m constantly cashing out. That’s the only way to keep up with everything my family needs.”

Jake N., Accountant
San Marcos, CA
Others, like Mark, Brian and Jake enjoy their careers and continue working while trading part-time...

And many, like Robert, Dr. Rick, and Michael use my PULSE system to supplement their retirement income and ensure their golden years are truly golden.

The important thing is this: PULSE gives you the freedom to live your life however you choose. And Jeff is a perfect example.

Jeff learned about my unique approach to lifelong financial freedom at a conference for moms and dads who homeschool their children. Eager to earn a good income while staying home with their seven kids, he and his wife signed up. And a year later Jeff left the corporate world for good!

“540% on Apple Computer... proved to me... I was ready to quit my job!”

Jeff C., Bremen, ID

“My first trade I did on my own really got my blood a-pumping. Within a week it made 540% on Apple Computer and I was ready to quit my job!”

“The most exciting part about that Apple trade, and satisfying too, was that it proved to me that I knew how to put my line in the water and catch the big fish all on my own.”

“I turn my computer on first thing in the morning, check my email, and then do my trading. I only watch 5 or 6 stocks. And it takes less than a half hour to set up the day’s activity. Then I’m done.”

“I prefer to put in my exit order at the same time as my entry. That way you eliminate a lot of emotional second-guessing.”

“On autopilot you can generally get out with a profit.”

Jeff couldn’t wait to leave the corporate world. So that’s what he did.

But, if he hadn’t wanted to give up his career, there was no need to choose between working and trading. Because the 30 minutes a day he spends setting up his PULSE trades could easily fit into just about anybody’s day... wouldn’t you agree?
So, the only choice I see is whether or not you choose to have the financial freedom to choose.

In other words, are you ready to trade a few minutes while drinking your morning coffee in exchange for a lifetime of being able to do whatever you want whenever you want?

If so, you'll find everything you need to know... laid out in the simplest of terms... in The Pulse System Manual and quick-start DVD. Let me tell you about it.

**The PULSE System**

**Manual & Quick Start DVD**

**Everything You Need To Turn $100-Bills Into $1,000 Paydays**

“I think a lot of people run scared when you start talking about Delta and Gamma and all that. But Chris makes it simple. He tells stories and that makes it very interesting.”

Diego V., Contractor in Agoura Hills, CA

- Become familiar with how Options work... how they’re priced... and how they’re traded.

- Learn all about my proprietary PULSE method for finding Weekly options offering the highest possible rewards and the lowest possible risk.

- Discover how you can achieve the greatest profits and the most winning trades with each PULSE strategy.

- Build the ultimate foundation for success... and gain the ability to do what hardly anybody else can do... Turn $100-Bills into $1,000 Paydays.

And that, my friend, is how you double your money 20 times in 20 days... I guarantee it!

**I Personally Guarantee You Will Double Your Money 20 Times in the Next 20 Days OR Your Money Back!**

On the cover of this special report I gave you my personal guarantee that you’d be able to double your money 20 times in the next 20 days.
It’s probably the boldest wealth-building promise anyone has ever made. And if you send for The PULSE System today, I’m prepared to back it up 100%.

To make sure you risk absolutely nothing, I recommend you start out paper trading... as you should with any new program where you place your own trades.

Follow The PULSE System to choose an option, enter a trade, and take your profits... write it all down on paper without actually entering the market. It’ll only take a few minutes of your time.

If for any reason you don’t double your money 20 times in 20 trading days... even if it’s only because you never got around to trying... and if you want your money back... simply return all course materials.

Every penny you paid for The PULSE System will be cheerfully refunded... No hassles and no questions asked.

And, in a minute I’ll sweeten the deal even further.

But first, I want to tell you about the weekly PULSE Update... and give you an opportunity to get The PULSE System guide absolutely FREE.

**PULSE Options Newsletter**

Gain valuable insight to act immediately and confidently to every PULSE profit opportunity.

- Get the PULSE short-list of options showing the greatest combination of
  - P – Potential to Win
  - U – Upside Reward
  - L – Low Risk
  - S – Strategic Setup
  - E – Event / Enter / Exit

- Learn about specific market-moving influences you can expect in the week ahead.

- Review the previous week’s activity... analyze what it says about the ever-changing market place... and determine how best to profit from that knowledge.
Posted online every Saturday, with a handy ‘click here’ link emailed directly to you, PULSE Options Newsletter is convenient, accurate, and loaded with action-ready profit opportunities like this....

“Last week Chris wrote about Tesla being a ‘Lit-Fuse’. So, on Tuesday I bought 20 Calls for $0.60... Then I bought 10 more Calls for $1.17... Overall profit: $17,250 in two days!” Brian H., page 15.

Say ‘Yes’ to PULSE Options Newsletter
And Get
The PULSE System Manual & DVD Absolutely FREE

Under the terms of this special introductory offer, there are three ways you can start turning your own $100-bills into $1,000-paydays right now.

PULSE Options Newsletter - $39 mo.
Posted every Saturday and conveniently billed to your credit card monthly. PULSE Options Newsletter gives you a short-list of Weekly Options that should make any viable trading system more profitable. So, at only $39 a month, I think it’s a ‘must have’ for ANYONE serious about making money trading options.

The PULSE System Manual & DVD - $179
No matter what your experience level, you’ll gain valuable insight from the truly unique PULSE System for turning $100-bills into $1,000 paydays. And, if you order now, we’ll even include FREE shipping ($12 value).

The PULSE 20-in-20 Winner’s Package - $97 qtr.
I think you’ll agree, this is positively the deal of the century! If you say “Yes” to a quarterly subscription to PULSE Options Newsletter for just $97, conveniently charged to your credit card every three months (a $20 savings off the monthly rate) you’ll receive The PULSE System Manual & DVD absolutely FREE!

And the PULSE 20-in-20 Winner’s Package is backed by the insanely bold... yet completely justified... 20-in-20 money-back guarantee you read about on page 19. That’s
the one where I promise you’ll double your money 20 times in 20 trading days or you can ask for a refund... You’ve got to be curious about that!

So, no matter what else you do in the long run, the only logical thing for you to do right now is pick up the phone, call 1-888-233-1431 and claim your free gift before they’re all gone.

Very Truly Yours,

Chris Verhaegh

PS The PULSE System Manual & Quick Start DVD... guaranteed to show you how to double your money 20 times in 20 days... sells for $179.

So giving you the course FREE probably makes me sound ridiculously generous. And I am. But, I’m also a good businessman. And I know the more money you make, the happier you’ll be, and the longer you’ll remain a PULSE subscriber. So investing in your success is smart for both of us!

If not this... then what?
If not now... then when?

“I came into option trading quite by accident.”

“My older brother, who trades for a living, had an open trade when he landed in ICU. So I called his mentor, Chris Verhaegh, to see what I should do.”

“The next day I closed the trade with a $20,000 profit and I thought... WOW, this is amazing!”

“Crazy as the economy, the job market, and everything is; people are still making a lot of money with Chris’s strategies. So I figured, why not join them?”
YES! I would love to turn my $100-bills into $1,000 paydays and possibly even a $25,000 monthly income, as demonstrated in this brochure. The tremendous success stories I’ve read today... told by folks from all walks of life, many with no prior trading experience whatsoever... are truly phenomenal. All I can say is COUNT ME IN!
