

## Meet Steve Swanson

Apparently Steve Swanson was born with a rare “inventor” gene; because throughout college, even though he majored in the unrelated subject of communications, Steve could be found in the electronics or computer lab working into the wee hours of the morning on his latest invention.

For example, intrigued by brain wave activity he learned about in his psychology class, Steve built a handheld biofeedback device that his instructors ended up using therapeutically on patients suffering from migraines. Then he sold a later version of his brainwave invention through JC Penny as a product called “StressMaster”.

Fascinated with the newly invented digital music CD, Steve created his own hardware and software to digitize sound and project the sound waves on his computer screen... creating a computerized digital oscilloscope.

Noticing the frequency differences between “S” and “Sh”, “V” and “F”, etcetera, Steve began analyzing pitch, tonality, phonemes, and every other aspect of speech. He even programmed some early speech recognition software.

Eventually his work ended up in the hands of the director for a School for the Deaf in Utah... which ultimately led to SpeechMaster, heralded as a breakthrough technology in modern medicine on national TV news and sold to hospitals, clinics and schools worldwide— international companies even bought it for accent reduction.

A group of big-time option traders, who manually calculated market cycles based on the teachings of J. M. Hurst, approached Steve to see if his SpeechMaster code could be converted to analyze market data... and so he did!

Extensive testing proved that Steve’s exciting breakthrough could bring financial freedom to millions of people the world over. So, in the spirit of ‘Build it and they will come’, he launched a website to make his 4<sup>th</sup> Dimension Cycle charts available to the public.

But, since word of mouth has been the only way for people to learn about Swanson’s website, it’s been somewhat of an inside secret for more than a decade... with only a fortunate few able to take advantage.

Thank goodness, last year friends introduced Steve to the folks at TradeWins Publishing, an industry leader in providing high-quality education and innovative tools for the serious investor.

Immediately recognizing Steve’s 4<sup>th</sup> Dimension Cycle Charts to be the most significant trading breakthrough in decades, TradeWins wasted no time in presenting the Affiliation of Financial Newsletter Publishers with a plan to make the astonishing game-changer available to deserving traders everywhere.

And now, for a limited time, you have the privilege of being among the first to profit from Steve Swanson’s revolutionary 4<sup>th</sup> Dimension Perpetual Income Generator.
