

Meet Multi-Millionaire Trader Chuck Hughes

After graduating from college Chuck Hughes entered the U.S. Air Force Pilot Training program. Chuck served six years on active duty as a pilot and six years in the Air Force Reserves. When Chuck completed his Air Force active duty tour, he got his dream job as an airline pilot flying for a major US airline.

Trading fit in well with Chuck's full time airline job as he could trade part time on his days off. He liked system trading and developed his own trend-following system that he still uses today.

In the beginning, Chuck had to start small with a \$4,600 trading account. But his tax returns show that he made \$460,164 in profits his first two years of trading. This was more than he made the previous six years as an airline pilot. Since then Chuck has made \$Millions trading and has over 3 decades of trading experience.

Chuck has written numerous books on investing and taught thousands of people how to make money trading. He resides on the Central Coast of California with his wife and six children and now trades full time. He is an avid tennis player and enjoys hiking in the mountains of Big Sur.
